

CURRENT TRENDS IN

Biochemical & Biophysical Modelling

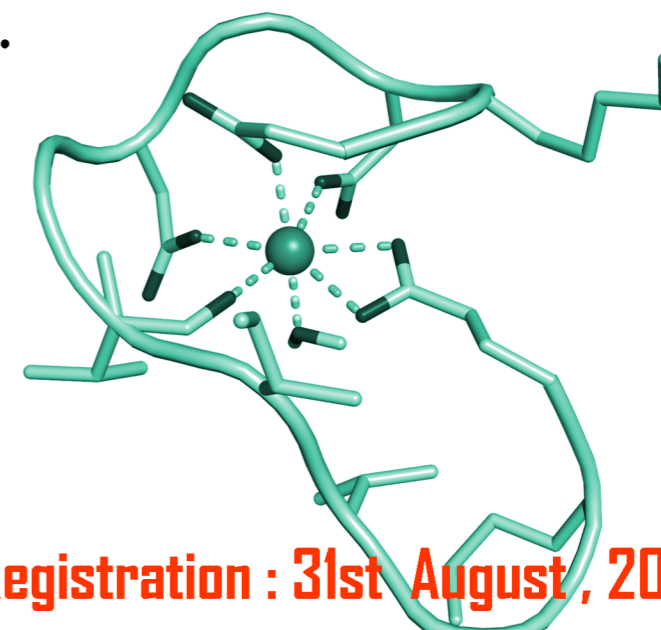

7-8
OCTOBER
2013

Satyendra Nath Bose National Centre for Basic Sciences ; Block-JD, Sector-III , Salt Lake , Kolkata - 700098

The activities in the area of biochemical & biophysical modelling and computation are gaining momentum with the advent of new theoretical and computational techniques. SNBNCBS is organising a meeting to bring together people working in these areas. This is an initiative to make a nationwide network of these emerging research activities.
